ORDER:

In the letters read above, the Chief Engineer (R&B) CRN & MD, APRDC, Hyd., has stated that Kurnool - Bellary road is an important State Highway in Kurnool District which Connects Kurnool town at one end and Bellary of Karnataka at the other end. The above stretch was badly damaged during the floods in the year 2009. Therefore temporary repairs were carried out by laying 20mm thick MSS during the year February, 2010. The existing carriageway is badly worn out and a lot of undulations developed because of heavy vehicular traffic. Moreover main water pumping to Kurnool City runs beneath the centre of the carriageway. Due to the frequent leaks of the pipe line, the stretch is being dug for rectification very often. Even though temporary rectification is done the carriageway is damaged .Traffic Intensity on the road is 12000 PCUs/Day.

2. He has further stated that BM is proposed over existing worn out SDBC layer in the subject work, as the surface is damaged with pot holes, surface cracks & rutting and requires strengthening in view of increased traffic.

3. The Chief Engineer (R&B) CRN & MD, APRDC, Hyd., has requested the Government to accord administrative sanction for the work of Strengthening the Road from Km 0/0 to 3/4 of Kurnool- Bellary road in Kurnool District, for an amount of Rs.365.00 lakhs, under Corenet Plan.
